Letter from E.M.Gawne Esq., I.C.S., Collector of South Kanara, D.Dis.No. 1993-27 dated August 1927.

Survey - South Kanara Uppinangady Taluks-
Forest land -Notification 'd's reference G.No. 1195/
27-4 dated 3-8-27 -report tted.

The case now in question is to the one disposed of in G.O.No. 251 Mis. Development dated 20-2-26.

2. In the case of complete survey numbers delimitation is necessary for the following reasons:-

(1) The entire survey number may not be fit for reservation.

(2) In many cases (e.g. in Kumri villages) many of the survey stones of the different survey numbers do not exist on the ground and consequently the limits of Government lands are not traceable.

The Collector's letter read above is submitted to Government with reference to their Memo. No. 1754 E/27-3 dated 18th July 1927.

For the purpose of ~~xxxx~~ declaring the areas mentioned at page 3 c/f. as reserved forest the Collector of S. Kanara has submitted notifications (1) appointing the Assistant Conservator of Forests, Mangalore as a Survey officer and (2) directing the survey of ~~the~~ the areas referred to. The areas referred to already bear survey nos. Apparently all the fields within the ~~block~~ surveyed as one block. ~~The Board of Revenue may perhaps be requested to explain the necessity for the survey of lands which have already been surveyed. A draft O.M. is submitted for approval~~

But why is any survey necessary if the land to be reserved consists of existing survey fields?

With reference to the Secretary's Query at page 2 supra it is submitted that the publication of the Notifications under the Madras Survey and Boundaries Act is necessary in order to legalise the entry upon lands by Forest officers for the purpose of the correct delimitation of the lands proposed to be reserved. But why is it necessary to legalise the entry of Govt officers for any purpose on land at the disposal of Govt? What delimitation is contemplated & how can complete survey numbers? Is the case in the Rev. G.O. really similar?

To Under Secy

The lands dealt with in the Govt G.O. in (R) are patta lands while the lands in the present case are Govt. lands

With reference to the Secretary's note at page 3 supra a draft G.M. to the Board is submitted.

No, wrong.

P.K. 14/7/27 From page 6 of GO Dev dy 20.2.26 it appears that the object in that case was to permit the entry upon lands adjacent to Govt. lands for the purpose of the survey and demarcation of Govt. lands (for reservation p.4 of R.) This case is probably similar, but definite info. may be called for, if thought fit

Why? Surely the second of the draft notifies is inconsistent with the Collr's [illegible] report.

Sec. S.R.

Fo 45.

According to the notification submitted by the Board of Rev. under section 5 of the Madras Survey and Boundaries Act the Survey is necessary for the purpose of the reservation of certain Govt. lands in the South Kanara district under the Madras Forest Act. In its reference no. G.1175/27-8, dt. 8.7.27, the Board stated that the notification has been submitted for publication in order to legalise the entry upon lands by Forest officers for the correct delimitation of the lands proposed to be reserved. The Collector of South Kanara in his letter no. p. 18 Cf. 1927 stated that the delimitation of complete survey numbers is necessary for the following reasons

The entire survey number may not

(3) In many cases many of the survey stones of the trigonometrical survey, numbers do not exist in the ground and consequently the limits of Govt. lands cannot be ascertained. This is inconsistent with the Board's Rev. Cir. 1, 1910, para 3 and the resurvey of the lands for the purpose of the reservation. But in such cases, before the notification is published, the Board should be asked to reconcile the Collector's letter with the terms of the draft which is intended by it under sec. 4

(b). The survey is nec. because there is a proposal to reserve the whole or part of the Works mentioned in the second notifn. on p. 3. c.f. The notifns. seem to be in order. The draft order may be issued

MMM 6.10.21

An amendment to the second notifn. has been suggested on p. 3. c.f.
